INTRODUCTION

Quick learning software developer with 2 years of experience. I have a passion for computer science and keeping up with the latest advancements in artificial intelligence.

WORK EXPERIENCE

Software Engineer, Sainsbury's, September 2017 – November 2019

- Developed a web app as part of a scrum team.
- Worked across the full stack, using cutting edge technology such as React.
- Communicated directly with customers to solve 3rd line support issues.
- Created a proof of concept project, presented to stakeholders, and organised a trial in store.
- Participated in hackathon events, including working on a winning project which was later developed into a production app.
- Helped maintain and automate deployment pipeline of an Azure based web app.

'Tell Us Now' and Data Analysis Team Support Assistant, Aberystwyth University, Summer 2016

- Assisted the student feedback team 'Tell Us Now' in preparing for the new academic year.
 - Processed data for the university wide database system ASTRA.
 - I was required to manage my time efficiently to work on tasks for two different teams.
-

TECHNICAL SKILLS

- React
 - .NET Core
 - C#, Java, JavaScript
 - SQL
 - Azure
 - Unity
-

EDUCATION

Aberystwyth University BSc(Hons.) Artificial Intelligence and Robotics (1st class), 2014 – 2017

Degree topics include: Data Structures and Algorithms, Software Engineering, Agile Methodologies, Modelling Persistent Data, Machine Learning.

INTERESTS

Games development: I have a strong interest in games development and design. 'Rubber Dinghy' was created with a friend over a 72-hour period. We published the game online, and it has since been played by over 200,000 people.
